

MBD FINANCIALS

Photorealistic, Decentralised, Business District In The
Metaverse

Who We Are

- We are a virtual reality metaverse where people can immerse themselves with realistic avatars in banking, business, learning, games, and life
- We aim to elevate financial system through DeFi and provide a positive social impact
- We are a cross blockchain technology that provides investment and earning opportunities

The graphic features a dark purple background with large, overlapping, semi-transparent circles in shades of purple and blue. The text is centered and uses a clean, sans-serif font. The title 'Our Mission' is in a larger, bold font, while the rest of the text is in a standard weight. The overall aesthetic is modern and tech-oriented.

Our Mission

The Metaverse Business District (MBD) project aims to enable and empower every individual with the opportunity to own and control their financial freedom via an entirely new digital cross-chain metaverse experience.

The problem

Not all communities worldwide have access to the same resources and opportunities. Simple access to Work, Loans, Entertainment, Education, Healthcare, and Training are limited by circumstance.

This circumstance is not one of natural condition, but instead, the very real limitations of human social, geographic, public health, political, and technological constraints.

This problem also provides opportunity: a global market of citizens raised in the “digital age” and seeking better access to financial and social opportunities

The Solution

Digitalization of
Modern Economic
Systems Through the
use of Photo Realistic
Virtual Reality and
Web 3.0

Our Vision

MBD Financials is developing a mixed reality metaverse Business district. By combining Virtual reality with the decentralization of blockchain technology we are providing users with means to monetize their online experiences.

MBD's project will provide opportunity for every unique individual as well as communities, businesses, and charitable organizations to thrive in a decentralized world where equitable services are readily available.

The project's roadmap and social impact scope include decentralized services and deliverables such as: a Non-Fungible Token Marketplace (NFT), Fiat and Crypto Financial Investment Opportunities, Digital Real Estate Exchange, Globalized Educational Services, Health and Wellness, Entrepreneurial Marketplace, and Advertising opportunities.

Social Impact

The digital economy and freedom of choice held within the Metaverse Business District delegates control of opportunity to the individual.

This approach enables equality and access to all global citizens, no matter of race, identity, wealth, political views, religion, or background to benefit and flourish in a Web 3.0 world full of hope and prosperity.

Our community is how the impact of this project will become a reality. We want everyone to be a part of this journey. We want everyone to feel and say "I saw the potential and I made an impact to bring change to a world in need of balance and shared prosperity for everyone".

How the metaverse has evolved

MARKET SIZE

The metaverse is evolving from two decades of gaming and will be built upon gaming infrastructure

Biggest DeFi applications or apps based on monthly protocol revenue since launch up to December 2021

MARKET SIZE

Biggest DeFi applications or apps based on monthly protocol revenue since launch up to December 2021

According to Bloomberg

"The global Metaverse revenue opportunity could approach \$800 billion in 2024 vs. about \$500 billion in 2020, based on our analysis and Newzoo, IDC, PWC, Statista and Two Circles data."

"The total Metaverse market size may reach 2.7x that of just gaming software, services and advertising revenue."

"Gaming, AR, VR creates \$413 billion primary market"

"Games that successfully pivot towards virtual 3D worlds can capture a greater share of engagement and user growth, accelerating sales growth."

- Market Research
- Technical & Blockchain feasibility
- Roadmap
- Whitepaper V1
- Prepare project teams
- Research & Market analysis
- Research & development of cross-chain MBD token
- Token listing submissions

- Partnerships & Integration
- Private sale
- Development of cross-chain NFT Marketplace.
- Community development
- Development of Defi platform
- Public Fundraising via launchpad
- Tier 1 & 2 token listed

- Development of Financial District Real-Estate
- Listing on major exchanges
- Community & User Growth
- Development of protocols to add to the Defi platform
- Deployment of MBD App
- Development of protocols for the NFT Marketplace

- Development of Metahuman digital passport
- Development of avatar accessories.
- Development of MBD Financial District
- Partnership & Integration
- Global User growth

Cross-Chain NFT Marketplace

- 1.0 • Create, Buy, Sell, P2P Swap
 - 2.0 • Capital Raise, Learn 2
 - 3.0 • E-commerce to NFT,
- Q3** Earn, Games 2 Earn
- Q4** Immersive NFT, Branding with merchandise

Defi Services Platform

- 1.0 • Cross-chain wallet, Dex, Fiat to crypto, Transfers, NFT balances
- 2.0 • High autostaking auto compound, automated yield optimizer with AI integration

Cross-chain flash loan Real-estate sale

Traction

Involvement in:

- The 2030 Agenda for Sustainable Development (UN)
- Working with leaders in Asia, and Africa on expanding the future of education.
 - Learn To Earn
 - Gamification
- Non-Profit Organizations
- Immersive Art
- Purpose Driven Artist
